The new scenario offers a pleasant challenge, but it isn't impossible; El Presidente becomes El Spielberg. The new map is very enjoyable. One fortress does the job of several guard towers. It makes fortifying the island much easier, and it T-Day does NOT, however, offer more control over individual troops or troop movement. This DLC also does not allow for

Definitely worth \$4.75/10. It gives a easier way to fort-up the island with out spaming 1 tile guard tower every where. i liked the dlc i think it was fun and the building is great and helps a lot

i would like a hole costume set instead of one peace.

all so buy 3 on sale beacuse 3 of 3 dollers is not bad and is good value

so wait till these come on sale but i would recomend geting T DAY as it is one of the best one.(well thats just what i think)

i do think the dlc policy for this game is bad but 3 for 3 dollers is fair and you get what u pay for in game content

so in odder you should frist buy the game

then 3 dlc on sale for 3 dollers

then buy waterborne or the spy one on sale for 5 dollers if u still like the game. \u7279\u4ef7\u624d\u5165\u5c31\u503c\u5f97.
